

22/03/2021

I hope all is well with you and your family during the during the COVID19 pandemic.

My name is Brendan Twomey and I am the Community Liaison Officer for Coillte and our co-development partner, SSE Renewables, on the proposed renewable energy project at Inchamore, Co. Cork. You may recall last September I dropped an introductory leaflet to your house giving some preliminary details on the site, the investigation works that will be undertaken and some background information on the developers.

My reason for delivering this letter is to provide you with a further update. In order to progress our assessment part of the preliminary investigations at Inchamore involves the installation of a 100m meteorological mast (also known as a met mast). A met mast measures and logs wind speeds, wind characteristics and wind direction at a range of heights over a period of time to assess the suitability of the site for a potential wind farm. We are intending to submit a planning application for the met mast to Cork County Council shortly. Thereafter, the application will be available to view online via Cork County Council website (www.corkcoco.ie).

Naturally, we are very mindful of the HSE and Government's protective restrictions in place at this time to reduce the spread and impact of **Covid-19** within our communities. In line with these restrictions we are unable to call to your house and discuss the matter with you as we would normally do, nevertheless we want to take this opportunity to make you aware of our proposed project using the post and direct phone contact. To do this effectively we would like to ask for your consent if you have not already provided it, as required under GDPR regulations. You can either:

- Email the attached completed form to me at btwomey@gmail.com

OR

- Send a text message to **087 9712151** requesting a call back or simply text "name" and the words "please keep me updated" and I will add your details to our contact list and you will be kept notified as updates become available in the future. All text messages will receive a reply letting you know that I have received your message.

For now, please stay safe and I will be in touch again.

Kind Regards,

Brendan Twomey
Community Liaison Officer (CLO)
